

NCG MEDICAL SYSTEMS VOTED NO. 1
IN CUSTOMER SATISFACTION

FOR IMMEDIATE RELEASE

ALTAMONTE SPRINGS, Fla. – July 14, 2005 – NCG Medical Systems, Inc. announced today that its Perfect Care® practice management software was ranked No. 1 in customer satisfaction, according to the 2004 Computer/Web Site Utilization survey conducted by the Professional Association of Health Care Office Management (PAHCOM).

The medical software provider is the only privately held company to make the list, and the only company that maintained and exceeded its high customer satisfaction rating by moving up two spots from its 2002 ranking. NCG Medical achieved an overall rating of 4.25, making the company and its software the highest-ranked service provider in the survey.

“We are both honored and thrilled that our software and staff are so highly regarded by our customers,” said Antonio Arias, NCG’s vice president of business development. “We have never claimed to be the biggest company in our industry, but have always believed that we are the best.”

NCG Medical develops and markets Perfect Care®, a practice management software, and d-Chart®, an electronic medical record software. The company’s software is installed in more than 2,000 medical offices in 24 states.

PAHCOM is a national organization created in 1988 to provide support to over 3,000 members who specialize in physician office management. The association conducts the annual survey of its members, asking them to evaluate their current practice management software systems by assigning a value from 1 to 5, with 1 being disappointed and 5 being very pleased.

About NCG Medical Systems, Inc.

Headquartered in Altamonte Springs, Fla., NCG Medical Systems, Inc. is a privately owned medical software company that provides cutting-edge technology and software packages to physicians in 24 states. Since 1979, NCG’s products have been helping physicians and their personnel manage daily business operations with its cost-effective practice management software, EMR and outstanding customer service.
